

Logic Valves & Flow Control

Pneumatic Non-Return Valve

Technical information

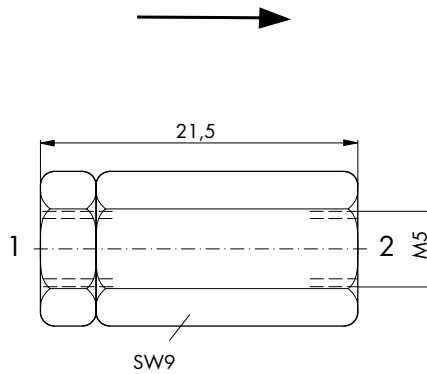

Pressure range:	Max. 8 bar
Opening pressure:	≥ 0.5 bar
Temperature range:	-10°C...+75°C
Materials:	Brass body
Flow rate:	Approx. 1.6 l/min
Nominal orifice:	2mm
Operating medium:	5 micron filtered, lubricated or non-lubricated compressed air

Symbol	Description	Ports	Order code
	Non-return valve (one way flow)	M5	47.260
